

GALTECH INTERNATIONAL

Changing out Display Panel Battery of the 936 or 986

1. Take a screw driver and remove the four screws holding the control panel together
2. Once open you should see the battery as in picture 1A

3. There is one screw hold in the battery. Remove screw. Refer to picture 2A
4. Remove bad battery. Insert New Battery properly. Screw in backing on battery
5. Screw the control panel back together and place on umbrella.
